Education

BE-Computer Science And Engineering

KAMARAJCOLLEGE OF ENGINEERING
2020 – 2024

HSC

MEADOWS HR.SEC.SCHOOL
2018 – 2019

SSLC

MEADOWS HR.SEC.SCHOOL
2016 – 2017

Education

- HTML
- Tailwind CSS
- JavaScript
- MongoDB
- Express.js
- React.js
- Node.js
- Canva

Certifications

- NPTEL course on Cloud Computing
- Html – Great learning Application
- Intercollege Achievers Certification

Summary

A skilled Junior Software Developer with a strong foundation in web technologies, including HTML, Tailwind CSS, JavaScript, MongoDB, Express.js, React.js, and Node.js. Experienced in developing full-stack applications, building dynamic user interfaces, and working with data-driven solutions. Passionate about problem-solving, debugging, and creating high-performance, scalable applications with a focus on clean, maintainable code and open-source contributions.

Professional Experience

Junior Software Developer

Brain Insight Technology | 2024 – Present

- I worked on a project where I implemented a data table using PrimeReact in a front-end application, focusing on an interface page and a dashboard. The project involved utilizing React.js for building interactive UIs and Tailwind CSS for responsive styling. I integrated Node.js with Express.js to handle back-end logic, while MongoDB was used for data storage and management, providing a full-stack solution.

PROJECT

Event Management Application

Dec 2024 – Present

- This Event Management Application, built with the MERN stack and PrimeReact, allows admins to schedule events, manage registrations, and accept donations. Users can register, make payments, and donate to events through forms created by the admin.

Task Manager Application

Oct 2024 – Dec 2024

- This MERN stack project streamlines task management between admins and employees, allowing task assignments via email and tracking through employee dashboards. Admins review and approve completed tasks, ensuring real-time updates for efficiency.

Healthcare Dashboard

Oct 2024

- This Healthcare Dashboard, built with HTML, Tailwind CSS, JavaScript, and React, offers a responsive interface with interactive visualizations and key metrics for efficient patient data management.
